

Manager of Technical Operations

Allied Moulded Products, Inc. (Allied Moulded) is the Contractor's Choice of nonmetallic electrical boxes and enclosures in today's residential, commercial and industrial markets. Leveraging more than half-a-century of experience, Allied Moulded has grown to become the benchmark of quality within the electrical industry. Our full-service molding operation includes expertise in compression and injection molding utilizing thermoset and thermoplastic materials, as well as our unique resin transfer molding process. Utilizing a modern automated assembly process, we are pleased to provide our customers with a superior product at a competitive price. Our unrelenting focus on service, delivery, value, innovation and technology in everything we make and do, has made us who we are today.

This is an outstanding opportunity for an experienced Manager of Technical Operations. The Manager of Technical Operations reports directly to the VP of Manufacturing and Engineering and will perform functions essential to the planning, organizing and managing of the Technical Operations group and with associated programs to accomplish the goals of the organization.

Qualified candidates should have a Bachelor's degree in an Engineering discipline and 10 years related experience in injection molding, thermoset, BMC (bulk molding compound) and SMC (sheet molding compound) manufacturing. Ability to manage people and situations. Excellent verbal and written communication skills.

The Allied Moulded Products, Inc. employee benefit options include medical insurance (low deductible) with vision coverage, dental, life insurance, and a disability and flexible spending account. You choose the benefits that best suit your individual needs. In addition, we offer a 401(k) plan with a company match, tuition assistance, vacation, holidays, and employee assistance.
